**Terry:**

**We will be meeting with a community organization on or about 2/23/15 but it is just for them. We will likely have a community at the completion of the removal action. If we can ever get close to getting done.**

**Thanks**

Hi Gary,

Thanks for the tour today. I was really surprised at how much you guys have accomplished since I was there last in early December.

The question came up in our meeting with Lubrizol yesterday – is EPA planning to have another community meeting? Is one planned at the end of the removal?

Thanks,

Terry
